

Notice

Dated: 09/06/2021

All the students of M.Sc. IT Session (2019-2021) are hereby notified that their **Viva Voce of Final Project** shall be conducted from **July 01, 2021 (Thursday) to July 02, 2021 (Friday)** during Office Timing (9:30 AM to 4:00 PM each Day). Keeping in view the current scenario of **COVID-19** the students are expected to prepare themselves for both types of presentation format i.e. **Online** via Google Meet as well as **On Campus** by appearing physically. In either case students shall be informed before their viva voce as early as possible. The schedule of sequence of presentation for each group accompanied by supervisors' details shall also be provided before Viva Voce commencement date.

Before final presentation you are anticipated to accomplish the following:

1. Each group must have uploaded the digital copy of their final documentation on their Google Drive in a book form (preferably MS Word Document) till **June 30, 2021 (Wednesday)**. In case of **On Campus** presentation, the students are also supposed to bring the hard copy of their final documentation in ring binding on presentation day.
2. Each group must have emailed the link for their uploaded documentations to the Project Office at younas@pugc.edu.pk as well as to their respective supervisors till **June 30, 2021 (Wednesday)**.
3. Each member in the group must have their application installed, configured and running on his/her individual computer/laptop, so that we can switch to the other system in case application crashes or some other problem occurs.
4. In case of Applications using tables to store data at the back end (e.g., Database Applications or E-commerce type Applications), each group must have entered Dummy Data in real format for **at-least 50 records or transactions** occurred on different random dates and distributed over a period of 3 to 4 months.

5. Each group is advised to test their application thoroughly & repeatedly for network and database connectivity. As in case, their application crashes, they have to reappear in viva voce next year.
6. Each group must have ensured the seamless internet connection with good connection speed.
7. In case of Online viva voce, the presentations shall be carried out by using **Google Meet**, so each group is advised to practice as much as possible within the group that how to share screens and their computers' control in **Google Meet**?

In case any query/question you may contact your respective supervisor or enquire project office via email, what's app or cell phone.
